

Address Manager™

Address Manager is a simple, easy to use address management program. Add addresses and save them for future reference. Perfect for sending your holiday cards or other correspondence.

Enter name, address, phone number, email, and other notes for each entry. There is no limit to the number of addresses you can add.

List all family members and their birthdates under one household entry. Group addresses by type to organize family, friends, and business contacts separately.

Print addresses on label sheets or directly on envelopes. Print the Address Book Report for a handy reference next to your phone.

Easy to Use!

Even with all these features, Address Manager is very easy to use. Plus, you can always receive free technical support from All-Pro Software.

To find out more about our Address Management and Business Software visit www.allprosoftware.com.
